

IF YOU PURCHASED A MOLEKULE AIR PURIFIER FROM A THIRD PARTY SELLER ON OR BEFORE OCTOBER 12, 2021, A CLASS ACTION SETTLEMENT MAY AFFECT YOUR RIGHTS.

A proposed class action settlement has been reached in a case called *Apaliski, et al. v. Molekule, Inc.*, No. 1:20-cv-01548-RGA, pending in the United States District Court for the District of Delaware. In the lawsuit, Plaintiffs allege that Molekule, in its advertising, made a series of material representations about the nature and efficacy of its Air Purifiers (namely, the Molekule Air, Molekule Air Pro, Molekule Air Mini, the Molekule Air Mini+, and/or the Molekule Air Pro Rx). These include that the Air Purifiers (1) outperform HEPA filters in every category of pollutant; (2) eradicate the full spectrum of indoor air pollutants; (3) provide allergy and asthma symptom relief; (4) combat unhealthy levels of wildfire smoke by destroying airborne pollutants; and (5) that the representations were verified by extensive independent testing. The Lawsuit alleges that this advertising was false and misleading. Molekule denies all of Plaintiffs' Allegations and maintains that its Advertising has been accurate at all times and supported by testing conducted by independent laboratories.

If the settlement is approved and you are a Class Member, you may be eligible to receive a Cash Payment and Coupon. You are a Class Member if you purchased an Air Purifier from a third-party seller such as Amazon, b8ta, Best Buy, MoMa Design Store NYC, and Sprout before October 12, 2021 and, as of October 12, 2021, had not agreed to the arbitration provision in Molekule's Terms & Conditions.
